

# NEW ITEMS JUNE 2017

## HEATING OIL TANK

Collector's model  
no. 3

0149 24 Taxi - MB 300 SD

0663 38 Forklift truck Still RX 70-25

0788 05 VW T1 (Type 2) bus

0412 02 Flatbed lorry (Henschel HS 14/16)

0438 01 Flatbed lorry with vehicle-mountable tank (MB)

0502 04 Low-loader truck-trailer combination (Magirus Saturn)

0861 42 Fire brigade - Large tank fire brigade vehicle (MAN)

0630 49 Towing vehicle (Hanomag)

0523 03 Container semi-truck 40' (Volvo F89)

0531 02 Silo trailer truck (MB Actros/Spitzer)

This silo trailer truck is a ubiquitous sight on all German motorways. Flaunting the colours of the "Kleinwächter" company, this awe-inspiring model comes to life when the silo raises up into the air just like the one mounted on its real-life brother. Sporting a combination previously unseen in our selection, the Still forklift truck RX 70-25 is now rolling into our portfolio with a bucket. Joining our series of collector's models is the VW T1 (Type 2) bus as a van with rooftop sign. Crafting new classics from both old and new moulds, WIKING is celebrating some of

the most astounding machines in automotive history. One of these new classics is the MB 300 SD, probably the most luxurious taxi cab of the 1970s. While Henschel HS 14/16 is making its début with a load of steel girders on its back, the Mercedes-Benz short-bonnet carries along a vehicle-mountable tank - typical of the period, just like the attractive "Westfalen" colour scheme. Three truck-trailer combinations are stunning throwbacks to the 1960s and 1970s. While the Volvo F89 is pulling a 40' container flatbed trailer, the Magirus square-bonnet has a regular flatbed

trailer in tow. Fans of fire brigade vehicles will be elated about the large tank brigade vehicle with MAN tractor unit as a representative of its time. Finally, the Hanomag towing vehicle is rolling into the range as a reminiscence of the early years after the war. This "Hanover" tractor unit is a reminder of the period's austerity and bleakness.

# MODEL UPGRADES JUNE 2017 WITH KRUPP TANKER TRUCK

0966 02 John Deere 8430 N-gauge 1:160

0961 04 Fire brigade – LF 16 (Magirus) N-gauge 1:160

0289 02 Ford FK 1000 van

0320 03 German Red Cross – VW T1 bus

0095 02 Trailer-mounted motor boat

0871 03 Tractor "Eicher Königstiger"

0046 04 VW Golf I convertible

0792 06 VW Porsche 914

0123 01 Auto Union 1000 Universal

0018 16 Accessory pack – concrete pipes

0805 98 Tanker truck (Krupp)

Its bright shine made it a beacon of the automotive awakening in the seventies: Now considered antique, the VW Porsche 914 zooms in as the latest snappy addition to the line-up just as our new first-generation VW Golf convertible. Also breaking new ground at the time, but much earlier, was the Auto Union 1000 Universal, which flashes a mesmerizing bi-colour design. Seemingly snatched from real-life of yesteryear is the Ford FK 1000 van as it prepares for its next sales call, while the VW T1 German Red Cross bus is presented, one last time, with supports for the roof superstructure before

the historic WIKING mould is reverted to its original condition. Sticklers for models accurately imitating the original will rejoice about the option to add concrete pipe cargo and a trailer carrying a motor boat to their collection. Modelled after a "Scholven-Chemie" truck, the Krupp model does not shy away from any job that calls for a heavy-duty truck-trailer combination. The latest addition to our line of farming machines – a 1:87 model of an "Eicher Königstiger" tractor – is the epitome of a dependable farm-yard tractor. Equipped with its signature protective roof, it was still widely used in

the 1980s. Our new N-gauge model of a John Deere 8430 powers through as a representative of more recent agricultural prowess, while the Magirus cab-over-engine truck brings back fond memories of the 1970s and 1980s when it served as a typical LF 16 fire brigade vehicle.
